BE A PART OF THE STORY

THE EMERGENCE OF MODERN ISRAEL

The Israel that we know today is rich with culture, beauty, innovation, and diversity. How did a land devoid of governmental oversight, academic institutions and industrial innovations become what it is today?

In this history course you will study scholarly texts, investigate primary sources, and enjoy virtual field trips to trace the development of the state of Israel from the mid 19th century until the year 2000.

Join us and explore the historical and ideological foundations of Zionism, the political and institutional development of the Yishuv, the establishment of the State of Israel, and the events of the decades following.

JOIN US, AND BECOME A PART OF ISRAEL'S STORY.
